Poster Board	Poster Presenter	Poster Title	Pico Session
1	Azin Howells, University of Reading	Drought prediction land surface parameterisation	Morning
2	Ian Holman, University of Cranfield	Future risk of agricultural irrigation constraints during drought	Afternoon
3	Duncan W Reed, DWR Consult	WR drought severity assessment + visualisation	Morning
4	Jianjun Yu, University of Oxford	Analysis of Drought-induced Tree Dieback Patterns under Uncertainty	Afternoon
5	Homero Paltan, University of Oxford	Atmospheric Rivers Drive Extra-Tropical Droughts	Morning
6	Paul Whitehead, University of Oxford	Impacts of Drought on Water Quality and Ecology In UK Rivers	Afternoon
7	Katya Manamsa, Environment Agency	Drought indicators and management	Morning
8	Benoit Guillod, University of Oxford	Synthetic drought events set in the UK for recent past and future conditions	Afternoon
9	Mohammad Mortazavi-naeini, University of Oxford	Integration of water quality-quantity models for water scarcity risk analysis	Morning
10	Jude Musuuza, University of Bristol	Physically-based modelling of a chalk catchment to understand process controls on low flows	Afternoon
